CHAITANYA SRINIVAS

Project Engineer | EPCM & EPC Delivery | Capital Works | Mining & Infrastructure

Brisbane, QLD · chaitanya.srinivas7@gmail.com · linkedin.com/in/chaitanyasrinivas
Australian Permanent Resident · FIFO Available · QLD C Class Licence

PROFESSIONAL SUMMARY

PMP®-certified Project Engineer with 4+ years delivering a **$15M+ brownfield capital works portfolio** in mining and heavy industry. Specialising in rotating equipment (API 610, API 682), multi-discipline contractor supervision, QA/QC & ITP compliance, and full-cycle EPCM execution from scope definition through commissioning and handover. Currently serving as **Associate Director (Acting) at PMI Queensland** while actively seeking Project Engineer or Project Manager roles in EPCM and mining & resources — Brisbane or FIFO.

CORE COMPETENCIES

Project Delivery	EPCM / EPC Delivery · Capital Works & Brownfield Projects · Project Planning & Scheduling · Cost Control & Estimating · Scope Change Management · Budget & Forecast Management · Commissioning & Handover
Construction & Field	Multidisciplinary Contractor Supervision · QA/QC & ITP Compliance · Punchlisting & Completions · Shutdown & Turnaround Coordination
Technical & Compliance	Rotating Equipment (Compressors, Turbines) · API 610 · API 682 · ASME B31.3 · Risk Management & HAZOP · Regulatory Compliance · SAP PM · MS Project · Primavera P6 · Procurement & Vendor Management

PROFESSIONAL EXPERIENCE

Project Engineer | Capital Works & EPCM Delivery — Dyno Nobel Moranbah

April 2022 – October 2025 · Moranbah, QLD

One of Australia's largest explosives and blasting services suppliers to the mining sector. Operated under mining-equivalent WHS legislation, EPCM contractor frameworks, and rigorous capital project governance.

- Delivered a **$15M+ capital works portfolio** in a brownfield owner's team environment, managing concurrent projects from scope definition through procurement, construction, commissioning, and handover — consistently on time and to budget.
- Coordinated multidisciplinary engineering design and construction activities, managing mechanical, electrical, and structural contractors across all project phases to ensure integrated delivery.
- Managed project schedules across concurrent packages using MS Project — zero schedule overruns on the $15M+ portfolio over 3+ years; monitored variances early and coordinated resource planning to meet key milestones.
- Drove cost management across the portfolio: prepared estimates and forecasts, tracked expenditure against approved budgets, and produced regular cost and progress reports initiating scope change management processes.
- Implemented Quality Management Plans and QA/QC frameworks aligned with ITPs; led commissioning activities, walkdowns, and punchlisting through to formal handover verification for all capital works packages.
- Ensured regulatory compliance across project execution, maintaining alignment with WHS legislation, engineering standards (API 610, API 682, ASME B31.3), and client governance requirements.
- Managed vendor data reviews, technical bid evaluations, and OEM coordination for rotating equipment including Dresser-Rand CVM compressors and Murray steam turbines — supporting procurement with technical rigour.
- Reduced turbocharger overhaul costs by **20%** through design optimisation and OEM coordination; improved cooling tower efficiency by **15%** and reduced equipment failure rates by **70%** through structured root cause analysis.
- Coordinated project work packages with site planning routines and shutdown schedules, integrating capital project execution with active plant operations and minimising production impact.

Reliability Engineer – Asset Performance — BHP

October 2021 – April 2022 · Brisbane, QLD

- Gained direct mining industry experience in maintenance strategy, reliability engineering, and asset management at one of Australia's largest mining operators.
- Improved asset hierarchy mapping and equipment data integrity by **30%** within SAP PM, enhancing maintenance planning and scheduling effectiveness across the asset portfolio.
- Developed a delay monitoring dashboard integrating SAP data, reducing equipment downtime by **25%** through data-driven defect elimination and structured reporting to engineering leadership.
- Supported risk mitigation investigations and contributed to continuous improvement initiatives within BHP's operational excellence framework.

Reliability Engineer Intern — Incitec Pivot Limited

February 2021 – September 2021 · Brisbane, QLD

- Contributed to equipment data integrity and reliability improvement projects at a major chemical manufacturing facility, identifying discrepancies contributing to **$100K in cost savings.**
- Conducted P&ID reviews and root cause analysis to improve process reliability and regulatory compliance across fixed and rotating plant assets.

Associate Director (Acting) – Events & Professional Development PMI Queensland Chapter

August 2024 – Present · Brisbane, QLD (Volunteer)

- Leading a team of **6 volunteers** delivering networking events and CPD programmes for the Queensland project management community.
- Planning and executing end-to-end event logistics — venues, speakers, registrations, and communications for PMI QLD members.

EDUCATION

Master of Engineering – Metallurgy	*NIT Karnataka, India*
Master of Business – International Business	*Queensland University of Technology*
Bachelor of Technology – Mechanical Engineering	*JNTU, India*

CERTIFICATIONS

PMP® – Project Management Professional	Project Management Institute (PMI) · Nov 2025
Six Sigma Green Belt	Completed
Primavera P6 – Project Scheduling	Completed

ADDITIONAL INFORMATION

Work Rights	Australian Permanent Resident — full working rights, no visa sponsorship required.
Availability	Available for hybrid arrangements across Brisbane or Sydney; FIFO rosters (4/3 or equivalent).
Licence	QLD C Class Driver's Licence.
Clearances	National Police Clearance — obtainable on request.
